①

CASE # 47630-4
II

There are a few things that I believe should have been addressed: Police would not go by my place of residency, when we past not more than a block from my house in route to the jail to question the person who gave me the check James, he was waiting for me to get back being is that he was buying a scooter from me. The Cop didn't seem to care about inquiring this piece of information which would have, in my opinion, taken the heat off of me. This individuals name was James, the check had James on it, my wife & a few other people were there an all could have vouched that I did not know this check was stolen - My wife, daughter, & Petr Ruzmich.

I also asked my attorney to get the police cars audio video so that I could have been able to prove that I told Officer Rawlings that James was waiting at my house for me to come back & that if he stopped by there this whole mess could have been cleared up - plus I could have proven to the jury that there was another person of interest that was ignored by Officer Rawlings purposely.

I also obtained information on the address of this James character & presented it to my attorney & all she said was she had a P.I. on it. He was never questioned or contacted on this matter at all, come to find out after my

② Case #47630-4-II

trial was concluded.

I also asked my attorney to ask the officer why he did not pursue contact with this person, James at my place of residency when it would have been very easy to have done since we drove within one block of my address en route to the county jail & why did he say that I told him these two individuals, Mario Andrews & James? were homeless & staying at my residence. I don't recall making any statements to that effect. I recall stating that an individual accompanied by another person visited my residence, the evening before interested in purchasing a scooter I was selling & being as it was late in the evening after normal business hrs I told them to come back in the morning & we will figure out payment. I had no idea that either one of them were homeless & they most definitely did not stay the night at my residence.

I also asked my attorney to subpoena James and to also have my wife & daughter put on the witness list.

I feel that my attorney did not have my best interest in mind and that I was railroaded by the judicial system

Respectfully
